

ELECTRIC/BI-FUEL BOOMS

HR15

The HR15 offers one of the best working envelopes in its class. Designed using the latest computer technology, it delivers unrivalled working outreach combined with pinpoint accuracy when positing the platform. A super narrow base as standard with the option of Bi-Energy power makes it ideal for a wide range of applications. With more outreach than any other machine in its class and a base width of only 1.50m, the HR15N is one of the most effective and versatile self-propelled platforms available.

Specifications
